SAfJR 2026

11th Conference on
Survival Analysis for Junior Researchers

Royal Netherlands Academy of Arts and Sciences | Amsterdam

March 25 - 27, 2026

Keynote talks

▶ **Time-related biases and methodological pitfalls in survival studies**
by **Hein Putter** (Leiden University Medical Center, the Netherlands)

▶ **Survival analysis under label shift**
by **Ingrid Van Keilegom** (Katholieke Universiteit Leuven, Belgium)

▶ **Estimands of practical interest in survival analysis**
by **Mats J Stensrud** (École Polytechnique Fédérale de Lausanne, Switzerland)

Relevant Topics

- Accelerated failure time models
- Bayesian survival models
- Causal inference
- Cure models
- Dynamic prediction models
- High-dimensional survival analysis
- Machine learning / targeted learning
- Meta-analysis
- Multistate models and competing risks
- Non-proportional hazards
- Pseudo-observations
- Statistical software

Abstract Submission

Start: September 1, 2025
End: October 15, 2025
Decision: December 2025
Awarded Oral & Poster Sessions

Registration

Start: January 1, 2026
